

# Training and Development Specialist

Great West Casualty Company is seeking a dynamic Training and Development Specialist to be responsible for training and development analysis, design, evaluation, and delivery.

You will assess the training needs within the company and apply advanced adult learning theories into a practical, application-based training strategy. Collaborate with departmental stakeholders and subject matter resources to design training and deliver classroom and web-based training.

## We are looking for:

- ★ Bachelor's degree in Training and Development, Instructional Design, Business or related field. Master's degree preferred.
- ★ 4 years of experience training and/or developing training for adults in a business setting.
- ★ Knowledge of e-learning technology and software.

This position qualifies for relocation assistance
